

On page 46 of the Owner's Manual the MPS quantity per spa was printed incorrectly.

The information on this page in red is the correct quantity.

Replace chart on page 46 in the Owner's Manual with this chart.

SOLANA® WATER TREATMENT GUIDE	
At spa startup or refill	Follow spa Start-Up and Refill Procedures. NOTE: Use the FreshStart™ _{10,000} pre-filter when filling the spa to remove unwanted contaminants.
Prior to each use (Test before adding any chemicals; do not add any chemicals if proper or higher levels are found.)	Add one-half (1/2) teaspoon of sodium dichlor per 250 gallons TX - 1/4 teaspoon RX - 1/2 teaspoon SX - 2/3 teaspoon -or- Add one (1) tablespoon of monopersulfate (MPS)* per 250 gallons TX - 1/2 tablespoon RX - 1 tablespoon SX - 1 1/4 tablespoon
Once a week	Add one and one-half (1-1/2) teaspoon of sodium dichlor per 250 gallons TX - 3/4 teaspoon RX - 1 1/2 teaspoon SX - 1 3/4 teaspoon -or- Add three (3) tablespoons of monopersulfate (MPS)* per 250 gallons TX - 1 1/2 tablespoon RX - 3 tablespoons SX - 3 3/4 tablespoons
Every four months	Drain and refill your spa. Replace the FreshWater _{Ag+} ® silver ion purifier. NOTE: Use the FreshStart™ _{10,000} pre-filter when filling the spa to remove unwanted contaminants.
As needed (If water is hazy, cloudy or has an odor)	Add one and one-half (1-1/2) teaspoon of sodium dichlor per 250 gallons TX - 3/4 teaspoon RX - 1 1/2 teaspoon SX - 1 3/4 teaspoon

* MPS is an oxidizer, not a sanitizer.
